

# IMPROVING ABIOTIC STRESS RESISTANCE

## KREOSTIM

### *Natural Biostimulant*

- Kreostim is a natural bio stimulant that has been specifically formulated to use in conjunction with the Kreo range of biological products available from Thinkbio.
- Kreostim contains a complex mix of trace elements, seaweed, phytoproteins, plant vitamins and natural chelators.
- The combination of Kreotec + Kreostim is recommended for horticultural crops, including tree crops. Products are combined in the spray tanks and are applied as a foliar spray.
